EDUCATION

Sahyadri College of Engineering and Management, Mangalore

2020 – 2024

B.E - Information Science and Engineering - CGPA - 8.5

Mangalore, Karnataka

EXPERIENCE

Technical Analyst at Prasanna Technologies Pvt.Ltd 🔗

September 2024 - Present

Role - SQL Developer

Mangalore, Karnataka

- Optimized PostgreSQL functions, procedures, views, and complex SQL queries for Smart Metering applications, reducing query execution time by 25%
- Developed and maintained 150+ PostgreSQL functions, procedures, and views to support scalable Smart Metering backend operations and improve database efficiency.
- Developed automated reports and dashboards using SQL, HTML, CSS, and ETL tools, decreasing database load during peak hours by 15% through scheduled data processing.
- Engineered and maintained robust APIs and backend database logic for web and mobile applications, supporting over 50,000 active users and ensuring efficient data integration.

Intern at EvoluteIQ 🔗

Febraury 2024 - April 2024

Role - Software Trainee

Mangalore, karnataka

- Developed business applications using the **EvoluteIQ AppStudio** low-code platform, delivering user-friendly and scalable enterprise solutions.
- Designed and configured application workflows, forms, and user interfaces to streamline business processes and improve operational efficiency.
- Collaborated with the development team to implement workflow automation, validate application functionality, and support enterprise application deployment.

PROJECTS

Gas Malaysia Project-GMRS 🔗 | [PostgresSQL,DBSolo,ETL](#)

2026- Present

- Developed PostgreSQL functions, procedures, and backend APIs for consumer management, meter reading, billing, and meter data processing in the Gas Malaysia Revenue System (GMRS).
- Designed and optimized database logic and SQL queries to improve data processing performance and support high-volume billing operations.
- Collaborated with frontend developers to implement search, display, and CRUD functionalities by developing scalable backend APIs and database services for web and mobile applications.

Smart Metering Project-Intellismart 🔗 | [PostgresSQL,DBSolo,ETL](#)

2024- Present

- Developed PostgreSQL functions, procedures, and APIs for billing (MCO) and asset data processing within Smart Metering systems.
- Built reports, dashboards, and ETL workflows with scheduled data processing, while implementing change requests and new features to improve system performance and reduce database load.

Eye Tracking Graph Encoder for Dyslexia Detection Using GNN. 🔗 | [Python, VSCode](#) **April 2024**

- Developed a real-time dyslexia detection system using webcam-based eye movement tracking and Graph Neural Networks (GNN) to analyze reading patterns.
- Analyzed eye-tracking data from 88 control and 98 dyslexic subjects to identify behavioral patterns and improve dyslexia prediction accuracy.

TECHNICAL SKILLS

Languages: Python, Java, SQL

Technologies/Frameworks: HTML5, CSS3, React,JavaScript

Tools/Platforms: VS Code,Android Studio,Pentaho ETL and Report Designer,PGAdmin,DBSolo

Databases: PostgreSQL,MYSQL

CERTIFICATIONS

- Operating System- NPTEL
- Database Management System- NPTEL
